DOJ Objective: Use of Force

DOJ Recommendation #: 9.4

The SFPD should explore the option for timely electronic notification to all oversight partners.

Purpose:

Officer-involved shootings are complex incidents that require notifications to numerous internal and external stakeholders. DOC staff's successful completion of this mission ensures a prompt, coordinated response that will promote accountability, transparency, and public trust in and for the integrity of both the administrative and criminal investigations. See DOJ Recommendation 9.2 for further.

Policy:

Effective 01/01/2017, It is the policy of the DOC that Officer-involved shooting notifications to the Department of Police Accountability (formerly known as OCC), the District Attorney's Office, the District Attorney Investigation's Office, and the DA's Independent Investigations Bureau be done by the Everbridge notification system, which simultaneously notifies stakeholders through text, email, and phone and records acknowledged. Internal SFPD stakeholders will be notified by both Everbridge and PIN systems.

The SFPD, by collaboration with this recommendation's Executive Sponsor, Project Manager, stakeholders, and working-group partners, has explored available options and determined that Everbridge is the most appropriate system to address DOJ's concerns and to meet the needs of our community, stakeholders, and agency. As such, Recommendation 9.4 should be considered "completed," as it was addressed and implemented through Recommendation 9.2.

For auditing purposes, the following procedures should be followed:

- Requests for a copy of the report will be routed through the Investigations Commander;
